

Softphone App for Android™ and iOS™ Grandstream Wave

Grandstream Wave is a FREE softphone application that allows users to make and receive voice calls through their business or residential SIP accounts on any Android or iOS device from anywhere in the world. This application supports integration of up to 6 SIP accounts, 6-way voice conferencing and allows users to monitor their PBX (such as Grandstream's UCM6100 series IP PBX & UCM6510 IP PBX) while utilizing speed dial with up to 24 virtual BLF keys. With Grandstream Wave, business and residential users always have access to their SIP lines and can easily keep in touch with business or personal contacts without using expensive cellular data plans.

Supports 6 SIP accounts

Supports G.722 HD audio codec, also supports G.711, G.726-32, iLBC, Opus and GSM

Includes a page that supports up to 24 virtual BLF/speed dial keys

TLS and SRTP security encryption technology to protect calls and accounts

6-way audio conferencing for easy conference calls

Voice channel switching between Bluetooth, mobile device, speakerphone and headset jack

Native integration with phonebooks on mobile devices as well as LDAP phonebook support

Supports 2-way video calls based on SIP & H.264 video codec

Supports advanced telephony features, including call transfer, call forward, call pick-up, call recording, call-waiting, shared call appearance (SCA), do not disturb, voicemail with message waiting indication and more

Protocols / Standards	SIP RFC3261, TCP/IP/UDP, RTP/RTCP, HTTP/HTTPS, DNS (A record, SRV, NAPTR), STUN/ICE, SIMPLE, LDAP, TLS, SRTP, IPv6 (pending)
Network	Supports 2G/3G/4G or Wi-Fi smart connection
Display	480x800 resolution or above
Camera	Support forward or rear-facing cameras
Bluetooth	Yes, supports mobile device's bluetooth
Voice Codecs and Capabilities	G.711μ/a, G.722 (wide-band), G.726-32, iLBC, Opus, GSM
Video Codecs and Capabilities	H.264, video resolution up to 720p HD
DTMF	In audio, RFC2833, SIP INFO
Audio Quality	Full-duplex speaker, AEC, AGC, Noise Reduction, PLC, Adaptive JIB
Telephony Features	Hold, transfer, forward (unconditional/no-answer/busy), call park/pickup, 6-way audio conference, paging, DND, shared-call-appearance (SCA) / bridged-line-appearance (BLA), BLF, downloadable phone book, call waiting, Voicemail with MWI, flexible dial plan, personalized music ringtones, server redundancy & fail-over, BLF
IP PBX Integration	Feature code synchronization, call recoding, conference room management
Mobile Device Integration	Supports background mode, proximity sensor for in-call touch screen and keys lock, auto rotation, GPS location based call forward (pending)
Enterprise Features	LDAP, IPVideoTalk
QoS	Layer 3 (ToS, DiffServ, MPLS) QoS
Multi-language	English, German, Italian, French, Spanish, Portuguese, Russian, Chinese (Traditional and Simplified), Korean, Japanese, Arabic, Polish, Turkish, and more
Security	Supports AES encrypted configuration file, SIP over TLS, SRTP (128-bit and 256-bit), HTTPS
Themes and Skins	Downloadable and customizable (pending)
Upgrade and Provisioning	Available from Google Play Store and Apple App Store Supports provisioning through QR code scan (using UCM-series of IP PBXs) Mass provisioning using AES encrypted XML configuration file
Devices Supported	Android 4.1+, iOS7.0+
